We look forward to discussing your personal needs and to meeting you in the near future!

Since almost everybody speaks English, many internationals never get round to taking Dutch lessons and the ones who do often struggle to use Dutch in real life. Now there is a new, innovative method: Boost Your Dutch.

Boost Your Dutch is specially developed to help internationals overcome the hurdles of getting to grips with the Dutch language.

The Boost Your Dutch approach

- Custom-made materials
- No books required
- Lessons are very interactive
- No-stress/friendly atmosphere
- Instruction individually or in small groups

Our Dutch courses focus on using Dutch in practice. Dutch courses are held at training facilities in Amstelveen but also at business premises. Join us & talk Dutch from Lesson 1.

Some internationals expect the Netherlands to be easy to settle into. They are surprised to learn that it can be difficult and time-consuming to find your way locally.

After arriving in the Amsterdam region, you will have to rebuilt your professional and personal life. Bringing over a partner and/or family might cause extra concerns, as you are looking to ensure they settle smoothly into their new surroundings.
